

## Worksheet for Graduate Student EAP - Fall 2021

1. List two databases you might use to find scholarly articles in your research field.
  
2. Use one of those databases to search for scholarly articles. Be sure to use OR between synonyms, AND between different aspects of your topic, and limit to scholarly peer reviewed articles within the most recent 5 years. Share your strategy below.  
Example: (weather forecasting OR weather modelling) AND (machine learning OR neural networks)
  
3. Using APA Citation Style (7<sup>th</sup> edition), list one citation of an article you found below. \*\*Make sure the article is scholarly, available in full-text, and has references at the end.
  
4. If the article is not available in full-text in the database you were searching what can you do? Highlight the correct answer.
  - a. Copy/Paste the article title into the library search box
  - b. Copy/Paste the article title into Google Scholar
  - c. Request a copy of the article through interlibrary loan
  - d. All of the above
  
5. From the end of the article you chose for #3, select one article from the list of references at the end. List that article below in APA format.
  
6. Paste that article title into Google Scholar, and list below how many times this article is cited.
